

## FLOUR BLEACHING ILLEGAL

### THE GOVERNMENT WINS CASE AGAINST THE MILLERS.

The Jury After Six Weeks' Trial Decided flour so Treated Was Adulterated and Misbranded.

Kansas City, Mo.—"We, the jury, find the flour seized in this case to be adulterated."

"We, the jury, find the flour seized in this case to be misbranded."

The above verdict was returned in the bleached flour case at Kansas City. An appeal will be taken at once from the verdict by the Lexington Mill & Elevator Co. of Lexington, Neb., the claimants in the case. The basis of appeal will be particularly from the charge to the jury by Judge McPherson.

The verdict is a big victory for the government. The department of justice and the department of agriculture had been preparing for the present prosecution several years, practically ever since the practice of bleaching flour began about six years ago. Chemists of world wide reputation and the government laboratories carried on experiments to prove the poisonous nature of the peroxide gas used in the bleaching process. Many of these experts went on the stand in the trial here and swore that the nitrates produced by this process were deadly poison.

### THE GOVERNMENT CROP REPORT

The Showing July 1 Was Not Quite So Good as Last Year—More Corn Planted.

Washington, D. C.—A crop report issued by the government shows the preliminary estimate of the area of corn planted is 114,000,000 acres, an increase of 5,132,000 acres, 4.5 per cent, as compared with the final estimate of last year's acreage.

The average condition of the crop on July 1, was 85.4 as compared with 89.3 on July 1, 1909; 82.8 on July 1, 1908, and 85.1 the ten year average on July 1.

The amount of wheat remaining on farms is estimated at 5.3 per cent of last year's crop of about 38,730,000 bushels, as compared with 15,062,000 on July 1, 1909, and 38,708,000 the average amount on farms on July 1, for the past ten years.

The condition of wheat on July 1, or when harvested was 81.5, as compared with 80.0 last month, 82.4 at harvest 1909, 80.6 in 1908 and 81.2 the average at the time of harvest for the past ten years.

### THE INDIAN OIL ROYALTIES CUT

New Rules Promulgated by the Secretary of the Interior on the Subject.

Washington, D. C.—The secretary of the interior has promulgated new rules affecting the royalty to Indians from their oil properties. The royalty heretofore has been one-eighth, on a basis of 42 cents a barrel. The new regulations provide that the royalty shall be on a basis more accurately representing the market prices and which will fluctuate with it.

The new basis is to be determined by the secretary. The market price for some time has been about four cents below the basis fixed for the Indians' royalty. The figures on which the new royalty will be based will be about 65 cents a barrel.

### FINED THE NEWSPAPER MEN

They Published a Confession While the Jury was Being Drawn—Held to Be Contempt.

San Lake City, Utah.—The publication by the Herald-Republican of the confession of Harry Thorne when the latter was about to be tried for the murder of George W. Passell, and the confession of the confession while the jury was being drawn, was held to be contempt of court, according to District Judge T. D. Lewis, who imposed fines on the newspaper, its general manager and a reporter.

George T. Lewis, general manager of the Herald-Republican Publishing company, was fined \$200 on each count; the managing editor, city editor and court reporter were each fined \$10.

### LAST RITES FOR CHIEF JUSTICE

During the Services at St. James' Church All Chicago Courts Were Closed.

Chicago, Illinois.—The last rites for Chief Justice Fuller were performed here. The burial was at Graceland, beside his wife.

The funeral party which arrived from the East attended services at St. James' church. All courts were closed.

### In Chicago, 21 Prostrated.

Chicago, Illinois.—A rise in temperature of 22 degrees in ten hours, with a maximum of 94 degrees, caused much suffering in Chicago. Twenty-one cases of heat prostration were reported.

### Passenger Trains in Collision.

Aurora, Illinois.—A dozen persons were more or less seriously hurt when two passenger trains collided head on at the Elgin branch of the Aurora, Elgin and Chicago railroad at Ingallton, east of St. Charles.

## MRS. PHEDUM'S GUESTS DISCUSS THE GOOD OLD SUMMER TIME

### WELLMAN HAS ANOTHER PLAN

HE WILL CROSS THE ATLANTIC IN HIS DIRIGIBLE BALLOON.

Aircraft Was Built to Sail for North Pole and is Second Only to Count Zeppelin.

New York, N. Y.—Walter Wellman and Melvin Vaniman will attempt this fall to cross the Atlantic Ocean in the dirigible balloon America, which was built for the Wellman polar expedition and has twice been tested in voyages over the Arctic Ocean north of Spitzbergen. The attempt will be made solely on the responsibility of the aeronauts, but the New York Times, the Chicago Record-Herald and the London Daily Telegraph have arranged to buy the news of the expedition, which will be transmitted by wireless from the airship.

The America will be housed at Atlantic City for its preliminary trial. A shed to shelter it has already been contracted for and hydrogen gas apparatus to inflate the gas bags has been shipped from Paris. This shelter or hangar, as it is technically known, will be 250 feet long, 80 feet wide and 80 feet high.

The America will carry a crew of six men, including the wireless operator, and 1,600 gallons of gasoline in a steel tank. Equipped for a day's run it could carry 75 passengers in addition to its full crew. In size it ranks second only to the latest Zeppelin airship. Two engines will drive it, one of 70-horsepower for ordinary duty, and one of 300-horsepower for emergency service, when high speed is needed. A little 10-horsepower motor takes the place of a donkey engine aboard ship for small jobs.

### A LAWYER'S FEE OF \$250,000

The Yerkes Estate Will Have to Pay That Amount to Clarence A. Knight.

Chicago, Illinois.—A quarter million dollars is the fee demanded, and may be paid to Clarence A. Knight, an attorney, for services in settling the estate of Charles T. Yerkes, the traction magnate.

Granville W. Browning, master in chancery, who was appointed as referee by Judge Cutting of the probate court, declared that the fee was just and not extortionate. He not only gave it as his opinion that Knight was entitled to the full quarter of a million, but that he well deserved it for honest and loyal work in recouping the dissipated properties following Yerkes' death in 1905.

### MOB LYNCHED A DETECTIVE

He Had Shot a Saloonkeeper in a Riot Which Followed an Attempt to Close Saloons.

Newark, Ohio.—As the result of beer riots here Charles Etherington, a detective of Cleveland, employed by the state Anti-Saloon League was lynched by a mob of 5,000. Following the announcement of the death of William Howard Saloonkeeper and former policeman who was alleged to have been shot by Etherington during the rioting, the mob stormed the jail battered down the doors and seizing Etherington, dragged him across the street and strung him up to a telegraph pole.

### Cloak Workers on Strike.

New York.—Obeying the strike order issued by their leaders, thousands of women cloak and garment workers in this city struck for higher wages and improved working conditions. The prediction was made that 70,000 operatives would quit soon.

### Pinchot at Kansas City.

Kansas City, Mo.—Gifford Pinchot will address the Knife and Fork club at its ninety-fifth dinner at the Coates house. The subject of his remarks has not been announced.

### SECRET ALLIANCE A MENACE

If Japan and Russia Combine Our Navy Will Need to Be Vigorously Enlarged.

Washington, D. C.—The state department and the navy department have been more alarmed by the news of the secret offensive and defensive alliance between Japan and Russia than by any demonstrated events since the promulgation of the open door policy by the United States.

Both departments know that the alliance has made futile the double standard naval policy which it was thought, when put into effect, would be a complete check to Japan.

By the double standard was meant the throwing of one-half of the American navy into the Pacific, it being assumed that American construction would be always more than double that of Japan. It is obvious to all the experts that the object of Japan and Russia, openly backed by Great Britain, is to neutralize the power of the United States in the Pacific and among the nations, and it is admitted that if Japan and Russia were to combine and were to rush their battle-ships under construction the theory of a double standard would have to be replaced by a fact, namely the transfer of the majority of the American battle-ships of the first class into the Pacific.

### SOUTHERN NEIGHBORS OBJECT

The United States' Policy in Nicaragua May Lead to Serious Diplomatic Situation.

Washington, D. C.—That at least three and perhaps more of the Central and South American republics will make a concerted protest of some kind at the coming international conference of American states at Buenos Ayres against the Central American policy of the United States, is the possibility being discussed in diplomatic circles here.

Rumors to this effect have been persistent of late in quarters usually well informed, and some responsible Latin-American representatives admitted their approximate truth, though none would permit himself to be quoted. Officials of the state department are watching the situation closely.

### THE OIL COMPANY TO BE GOOD

The Waters-Pierce Will Pay Oklahoma \$75,000 and Promise to Cease Unlawful Practices.

Enid, Oklahoma.—The suit of the state of Oklahoma to oust the Waters-Pierce Oil company from the state for violation of the anti-trust law, was settled by the company agreeing to pay a fine of \$75,000 and cease its unlawful practices.

### State Contributions Not Limited.

Guthrie, Oklahoma.—That a contribution by a candidate for office to a general state campaign fund is not to be included in the personal expenditures on which a limit is fixed by law is the holding of Attorney General West in an opinion to the secretary of the Democratic county committee at Tahleah.

### Kansas City's New Police Chief.

Kansas City, Mo.—W. F. Griffin superintendent of streets, was appointed chief of police by the police board. The vote was unanimous. Solon T. Gilmore proposed Griffin's appointment, Mayor Brown seconded the motion and Thomas R. Marks voted aye.

### A Railway Strike in Paris.

Paris, France.—A general railway strike is threatened. The men, who demand an increase in wages, already have voted to strike in principle, pending the result of negotiations with the companies.

### Woman Leads Educators.

Boston, Mass.—Mrs. Ella Flagg Young, superintendent of the Chicago public schools, was elected president of the National Educational association. Mrs. Young is the first woman ever elected to this office.

## THOSE FRIAR LAND CHARGES

Representative Martin of Colorado Makes Specific Charges Against Officials.

St. Louis, Missouri.—Representative John A. Martin of Colorado gave out here a 5,000-word statement of the charges he makes that the war department connived with the sugar trust in the friar land sales in the Philippines. Some of the principal points of the indictment follow. He charges:

That the San Jose Friar estate was sold to an agent of the sugar trust as the result of the opinion of the attorney general, whose law firm represented the sugar trust at the time he entered the cabinet.

That the opinion allowing the sale undid the work of congress, violated the letter and the spirit of the law and overturned the policy of the United States.

That the three explanations of the sale, sent to the house of representatives by the war department, were full of material mis-statements, contradictions and evasions.

### RIVALS A JULES VERNE DREAM

A St. Louis Man Builds Commercial Passenger Airship to Carry 100 Passengers 100 Miles an Hour.

St. Louis, Missouri.—The incorporation of the Universal Aerial Navigation company has revealed plans for a commercial passenger airship that rival the wildest dreams of Jules Verne. Officials of the corporation declare that within a year they will have a ship that will carry 100 passengers in a 40 mile gale and at a speed of 100 miles an hour. The ship is the invention of J. W. Oman, formerly of San Antonio, Texas, but now a St. Louisian. One is in process of construction in the shops of the inventor here, who claims that his ship can start either from the land or the water. He declares it will ascend straight into the air or can be launched in the manner of an aeroplane.

### A FORTUNE FOR EACH FIGHTER

Jeffries' Share, Although Defeated, Was \$192,066—Johnson's Total Was \$145,600.

Reno, Nevada.—Johnson's share of the fight money is: Sixty per cent of the purse, \$60,000; bonus, \$10,000; share of moving picture, \$50,000; total, \$120,000. Earned after signing articles and before the fight, \$25,000; total, \$145,000.

Jeffries' share: Forty per cent of the purse, \$40,000; bonus, \$10,000; share of moving picture, \$50,000; total, \$110,000. Earned after signing articles and before fight, \$75,000; total, \$192,066.

### SENTENCED DR. HYDE FOR LIFE

Man Convicted of Poisoning Col. J. H. Swope Refused Bail Pending Appeal to Supreme Court.

Kansas City, Mo.—Dr. B. C. Hyde, convicted of the poisoning of Col. T. H. Swope, was sentenced by Judge Latschaw to life imprisonment. Bail was refused, the court deciding that under a recent decision liberty could not be allowed the prisoner pending an appeal to the supreme court. Dr. Hyde will remain in the county jail until his case has been reviewed by the final state authority.

### Car Loads of Postal Cards.

Kansas City, Mo.—Two carloads of postal cards and stamped envelopes were transferred from the freight yards to the stamp vaults in the post office here. They are to be sold here and distributed to other postoffices in the Southwest. There are 9,000,000 stamped envelopes and 6,000,000 postal cards in the shipment. The shipment represents a selling price of \$220,000.

### Engineers Will Ask More Pay.

Chicago, Illinois.—Nearly 30,000 members of the Brotherhood of Locomotive Engineers on roads West of Chicago, Duluth and New Orleans will present a new wage scale to the companies before August 1. They will ask from 20 to 40 per cent increase in wages.

### An Iron Ore Record in 1909.

Washington, D. C.—More iron ore was shipped from Lake Superior in 1909 than ever before in a single year. The quantity, according to a report just issued by the United States Geological Survey, was 42,594,110 "long" tons.

### Salina Millers Not Alarmed.

Salina, Kansas.—The millers in this city declare that the decision of the government regarding "bleached" flour will not affect the Kansas millers except to reduce the expense of production after the new law becomes effective.

### Avalanche Caught Tourists.

Grinendenwald, Switzerland.—An avalanche over whelmed two parties of Alpinists near the Bergli hut. Seven people, including three guides were rescued. They are seriously hurt. Five others cannot be found.

### Tennessee Congressman Dead.

Bristol, Tennessee.—Representative Walter Preston Brownlow of the first congressional district of Tennessee after suffering for several years from bright disease died in the hospital of the National Soldiers Home.

## IT IS A MISTAKE

Many have the idea that anything will sell if advertised strong enough. This is a great mistake. True, a few sales might be made by advertising an absolutely worthless article but it is only the article that is bought again and again that pays. An example of the big success of a worthy article is the enormous sale that has grown up for Cascarets Candy Cathartic. This wonderful record is the result of great merit successfully made known through persistent advertising and the mouth-to-mouth recommendation given Cascarets by its friends and users.

### HE ENJOYED IT.

Mrs. Talkalot—It's a wonder you wouldn't be careful about your own language. You make it a business to pick me up on little blunders.

Mr. Talkalot—No, my dear. I make a recreation of it.

### Well, Wasn't He Right?

The minister was addressing the Sunday school. "Children, I want to talk to you for a few moments about one of the most wonderful, one of the most important organs in the whole world," he said. "What is that that throbs away, beats away, never stopping, never ceasing, whether you wake or sleep, night or day, week in and week out, month in and month out, year in and year out, without any volition on your part, hidden away in the depths, as it were, unseen by you, throbbing, throbbing rhythmically all your life long?" During this pause for oratorical effect a small voice was heard: "I know. It's the gas meter."

### The Miser of Sag Harbor.

"Economy," said Daniel W. Field, the millionaire shoe manufacturer of Boston, who at the age of forty-five has entered Harvard, "economy is essential to wealth, but by economy I don't mean niggardliness. "Two many men fail to attain to wealth because they practise a cheeseparing and mean economy that gets everybody down on them. "They practise, in fact, an economy like that of old William Brewster of Sag Harbor. William, you know, would never buy oysters because he couldn't eat shells and all."

### Coming Down to Earth.

"Happiness," declaimed the philosopher, "is in the pursuit of something, not in the catching of it."

### Hear Many a One.

The Judge—Madam, do you understand the nature of an oath?

The Witness—You seem to forget, your honor, that I've been married for over 20 years.

### Theatrical expense accounts come under the head of play bills.

### Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

### It has been Dr. Pierce's privilege to cure a

great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

### Dr. Pierce's Favorite Prescription restores and regulates

the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

### It Makes Weak Women Strong, Sick Women Well.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition.

## ATTRACTED BY THE GOSPEL

Koreans Have Shown Themselves Willing and Anxious to Hear the Word.

Rev. C. T. Collyer writes as follows in the London Christian: "It is more than twenty-one years since I first left home for the mission field. Never have I known of people being so ready to hear the Gospel as are the Koreans just now. I have had the privilege of doing a good deal of personal work during the past few weeks. Without stretching the point, I can say I have had personal conversation with several hundreds of heathen. Not one to whom I have spoken but has acknowledged that he must become a Christian. The young empress of Korea has not been making good progress with her studies, so it was felt she ought to have some young lady companions who are used to study. A young lady from our school was chosen for this position. She has been in the palace less than a month, but she has found many opportunities of witnessing for her Lord, with the result that her majesty has definitely set one hour each day for the study of Christianity, and ordered that a Bible and hymn-book should be procured for her. It has been my privilege to order a specially bound copy of the New Testament for her."

### What's the Answer?

We're ready to quit! After sending two perfectly rhymed, carefully scanned, pleasurable sentimental pieces of poetic junk to seventeen magazines and having them returned seventeen times, we turn to the current issue of a new monthly and find a "pome" modeled after Kipling's "Vampire," and in which home is supposed to rhyme with alone, run on page eleven with all the swell curlycues ordinarily surrounding a piece of real art. If poetizing is a gift we are convinced that this poet's must have been. As for us, we are on our way to the woodshed to study the psychology of the ax or any other old thing that hasn't to do with selling poetry to magazines.

### An Answer in Kind.

"How did the trouble in the family start?"

"The wife, it seems, got tired of her husband's heavy wit."

"Why didn't she simply make a light retort?"

"She did. She threw the lamp at him."
